"The transition of leadership presents an **opportunity** to build on the great initiatives occurring within the department and the district. The transition of leadership also provides an **opportunity** to utilize your experience and the expertise to provide direction in areas identified for growth and improvement."

Dr. Tyrell L. White

Key Takeaways

Collaborate with your teams.
When making decisions, bring a group together to discuss and share the responsibility and ownership of the decision.

Use your resources. Try to cite where you found your information for the guidance you provide. This helps build capacity among stakeholders.

26

Additional Resources

Access the QR code or link to find additional resources to support the development of your entry plan as a new special education director
