Infinite Influence:

Communicate and Connect with Anyone, Anytime in a Multi- Generational World

Presented by Alyson Van Hooser, Van Hooser Leadership

People everywhere are struggling to figure out how to communicate, connect, and influence in today's diverse world. It's been a struggle for decades and the challenge is increasing! Is there a practical solution? Absolutely! And it starts with a perspective shift on leadership – how to best lead yourself and the people around you. To lead and influence others, an authentic connection must be made with your people -- those you like and those you don't, those you understand, and those who confuse you most. This authentic connection is the foundation for success! Using the "Stories, Not Just Statistics" strategy will show you that it's in an individual's personal stories where you will find an unflinching compass pointing to exactly what to say and do to effectively engage and influence people of any generation, background, or professional level. This high-energy, incredibly relatable session will inspire, hit home, shift your mindset, and uncover a new paradigm in which to see yourself and everyone you know going forward. With this new perspective, you hold the power to build infinite influence, transformational impact, and achieve unlimited success!
